

Consumables - Leak detector

- Highly sensitive helium gas detection (0.01 ml /min) : suitable for discovering gas leaks in GC carrier gas lines
- Easy detection : detect leaks easily by bringing probe close to pipes or joints
- Easy to find out when to replace a septum : apply probe to septum to find out if replacement is necessary
- Compact size (65(W) x 37 mm(D) x 143 mm(H) – 350 g
- Rechargeable battery - 220V

Description	P/N
Leak Detector	E25101
